

Home Screen Part 1:

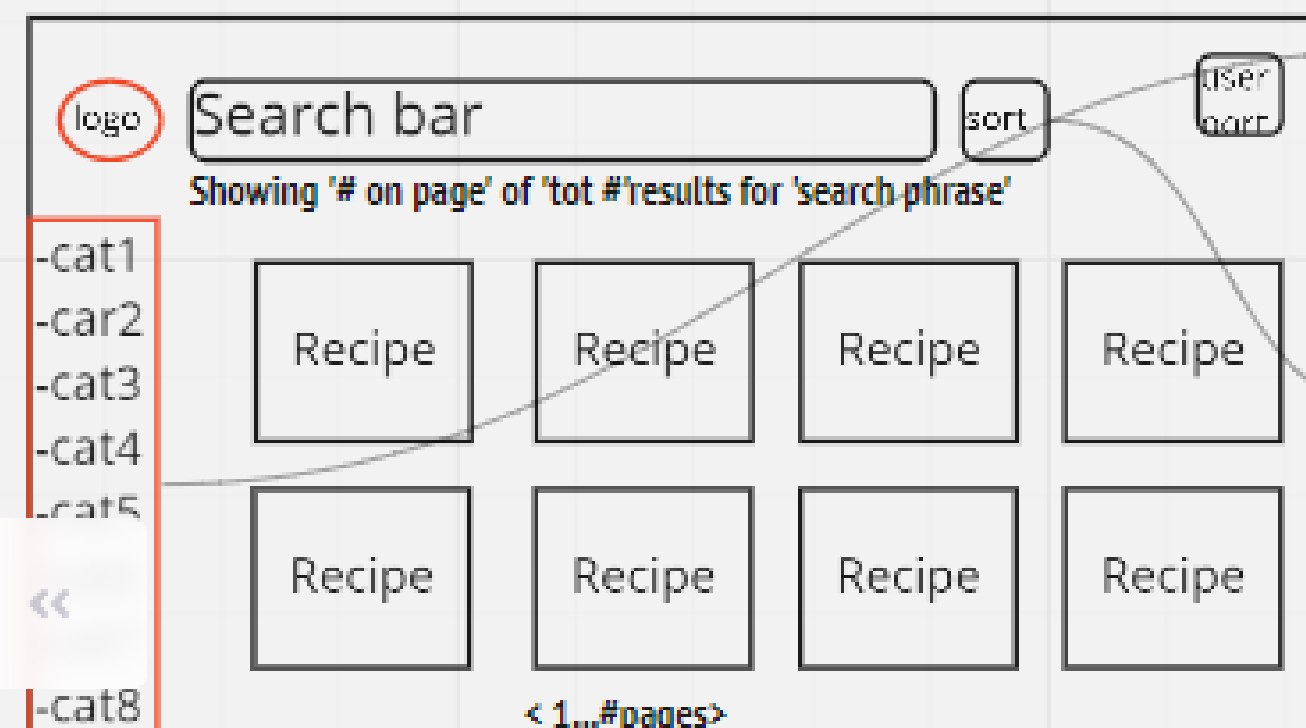

Home Screen Part 2:

Scrolling down from home menu will lead to unfiltered feed of recipes

Filtered Feed:

Similarly, pressing the above home screen buttons will lead to filtered feeds where total time is ≤ 5 min, ≤ 30 min, ≤ 60 min respectively

ie) ingredients-> when clicked it becomes a drop down with options + a submit for the filters

Has a list of common categories to choose

Redirects to top of home page

These should be clickable to quickly filter by time or cuisine. They are calculated based on already saved recipes

Lists popular category filters

This may need to change location

Possible: Hovering over a recipe will reveal some info about the item?

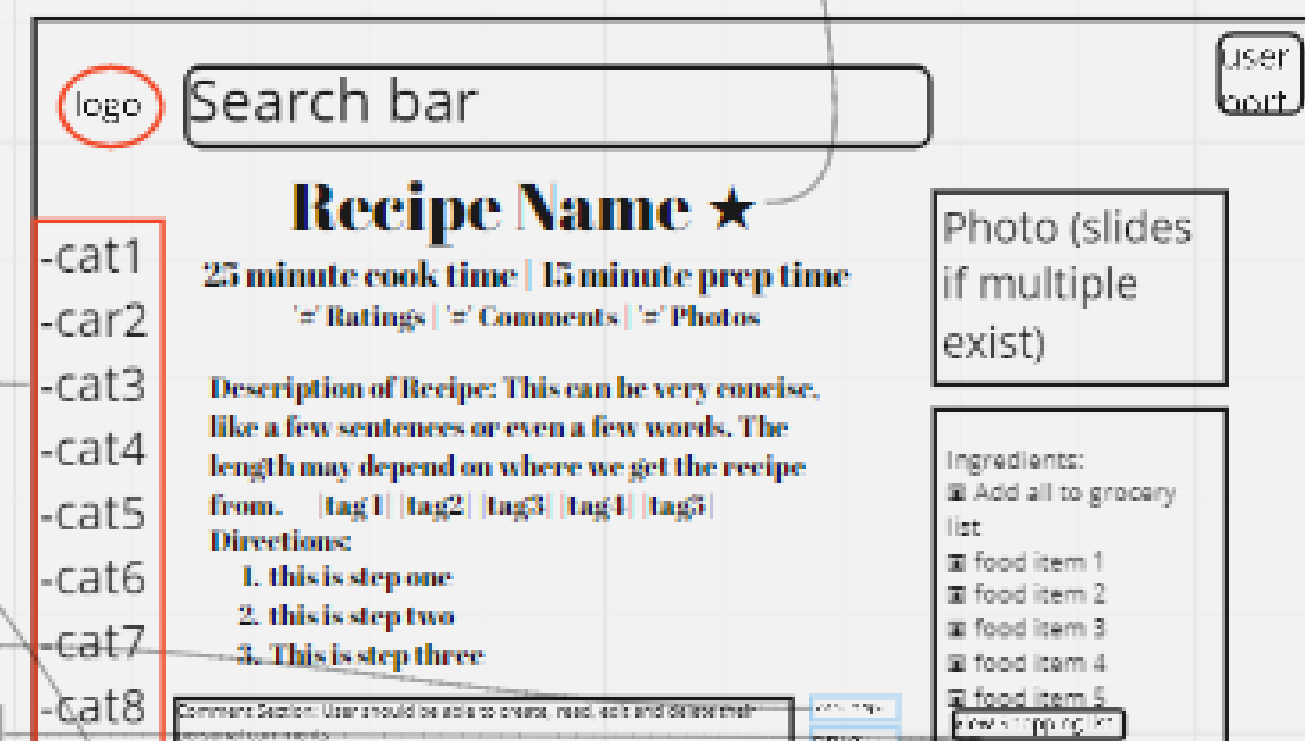

User Portal

Pop up window, instead of full page

Recipe Page

Filled in star indicates favorited recipe

This entire page should be an additional feature!!
